

**DO NOT CHEER
FOR GENOCIDE**

Stand with
Palestine and all
international
proletarians -

**REJECT CPUSA's
2025 "Amistad
Award" for the
imperialist trade
unionists of Pratt
and Whitney**

Pratt and Whitney's "strong union contract" means that the workers building F-35 engines will have continuous wage increases. The contract protects Connecticut's long-held role in finance capital's worldwide imperialist death machine.

The **only** correct role for a weapons-manufacturer worker is to organize their fellow workers **against** the imperialist federal contracts of their employer. **NOT** to organize for better wages and benefits for all eternity.

This means working **OUTSIDE AND AGAINST** the captured Business Unions like International Association of Machinists Local 700.

CPUSA Comrades who speak in good faith are silenced and blacklisted from their local clubs without any hearing or struggle.

If you feel that your club is spinning its wheels, **you are not alone.**

Reject the revisionist rot in CPUSA.
Reject their embarrassing award
for the Pratt and Whitney Local.

Those comrades with anti-imperialist hearts and minds should band together to ditch the CPUSA's corrupt central leadership. Democratic Centralism and inter-org criticism are the lifeblood of our movement. CPUSA abandoned these fundamentals decades ago.
